

INBRED MAIZE LINE PHAVN

Abstract

A novel inbred maize line designated PHAVN and seed, plants and plant parts thereof. Methods for producing a maize plant that comprise crossing inbred
5 maize line PHAVN with another maize plant. Methods for producing a maize plant containing in its genetic material one or more traits introgressed into PHAVN through backcross conversion and/or transformation, and to the maize seed, plant and plant part produced thereby. Hybrid maize seed, plant or plant
10 part produced by crossing the inbred line PHAVN or an introgressed trait conversion of PHAVN with another maize line. Inbred maize lines derived from inbred maize line PHAVN, methods for producing other inbred maize lines derived from inbred maize line PHAVN and the inbred maize lines and their parts derived by the use of those methods.
